

Points scored

Looking at the data provided the graph somewhat displays what is happening, the time to process goes up each time the array gets bigger where the input gets bigger and therefore the append takes longer to process.

```
Results for the tinyArray
insert 34.1 µs
append 74.7 µs
Results for the smallArray
insert 11 µs
append 10.9 µs
Results for the mediumArray
insert 121.4 µs
append 31.7 µs
Results for the largeArray
insert 8.4581 ms
append 289.1 µs
Results for the extraLargeArray
insert 967.0296 ms
append 2.4957 ms
```
